

FLOWERS

WESTERN ANEMONE

Uniquely shaped like mop tops, these perennial flowers can be seen in alpine meadows mid to late summer.

FOUND IT

RED COLUMBINE

Found in the mid to high elevations in mid-June to late Aug. Columbine means "dove" as it's thought the flower resembles birds sitting around a dish.

FOUND IT

FIREWEED

This beautiful purply red flower grows in abundance on the slopes of Blackcomb in July & August.

FOUND IT

SITKA VALERIAN

Measuring over 1 meter in height, this flower can be found on higher elevations. The root of the flower is also used as a sleeping aid.

FOUND IT

SKUNK CABBAGE

Common around most lakes, this Springtime plant has a distinct odor and can grow as much as 2 meters across.

FOUND IT

GOAT'S BEARD

Large patches are often found around Nita Lake and Nairn Falls. These large plants flower in mid-June.

FOUND IT

TIGER LILY

Often found in moist meadows, it is said that someone who smells a Tiger lily will develop freckles. Flowering begins mid-June.

FOUND IT

SPREADING STONECROP

Common on upper Whistler Blackcomb mountains, this plump flowering succulent is a mat-forming perennial.

FOUND IT

PINK MONKEY-FLOWER

Similar to a Snapdragon, this beautiful perennial can be found in large patches in upper Singing Pass from July to August.

FOUND IT

PAINTBRUSH

Very common in subalpine meadows such as Musical Bumps & Singing Pass.
